Art Unit 124

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification is objected to under 35 U.S.C. 112, first paragraph, as the specification, as originally filed, does not provide support for the invention as is now claimed.

The changing of "cyclopropylmethyl" to 3-butenyl on pages 33 and 34 of the instant specification has introduced new matter (i.e., 3-butenyl) into the specification.

This application is in condition for allowance except for the following formal matters:

Cancellation of the new matter (3-butenyl) identified in paragraph 1 supra is required

Prosecution on the merits is closed in accordance with the practice under ex parte Quayle. Ex parte Quayle, 1935 C.D. 11.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS ACTION IS SET TO EXPIRE TWO MONTHS FROM THE DATE OF THIS LETTER.
